SKILLS

- **Languages:** C++, Java, Python
- **Frameworks:** HTML, CSS, NodeJs, ReactJs, Django
- **Tools/Platforms:** Oracle, VS Code, Aws, Azure
- **Soft Skills:** Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

AgriJarvis | [GitHub](#)

Jan' 25 - May' 25

- Developed AgriJarvis, a full-stack smart farming assistant web application targeting Indian farmers, featuring a multi-page architecture with a landing page, authentication system, and an interactive dashboard built using HTML, CSS, and JavaScript.
- Integrated an AI chatbot powered by the Gemini 1.5 Flash API with agriculture-specific prompt engineering, supporting text-based queries, image upload for crop/pest analysis, voice input, and multilingual responses (Hindi & English)
- Designed a **pricing and solutions architecture** for multiple user segments (small farmers, medium-scale, commercial farms, Agri-retailers, FPOs) with tiered plans in INR, reflecting real-world product thinking and market strategy.
- Tech Stack used: Html5, Css3, Javascript

Hotel Management System | [GitHub](#)

Aug' 23- Jan' 24

- Built a full-featured Hotel Management System with 12 functional modules including Dashboard, Booking, Reservations, Rooms, Guests, Check-In/Out, Restaurant, Housekeeping, Billing, Staff, Reports, and Settings
- Implemented a centralized state management pattern in JavaScript to handle real-time data
- Designed an interactive Dashboard with live KPI stats
- Implemented CRUD operations for Guests, Staff, and Reservations with modal-based forms, search/filter functionality, and dynamic table rendering.
- Tech Stack used: HTML5, CSS3, DOM Manipulation

TRAINING

• [Lovely Professional University](#)

Jun' 25 - Jul' 25

• *Basic Of DSA using C++*

- Built strong foundations in Data Structures, working with 8+ core structures including arrays, linked lists, stacks, queues, trees, graphs, heaps, and hash tables. Implemented 15+ algorithms covering sorting, searching, and recursion using C++.
- Utilized Visual Studio Code and C++ to design and debug 20+ modular programs, implementing dynamic programming, graph traversal (BFS/DFS), and hashing techniques for optimized problem-solving. Visual Studio Code, C++, Dynamic Programming, Graph, Hash table.
- Demonstrated practical implementation of arrays, stacks, queues, heaps, and sorting algorithms to ensure efficient resource allocation.

CERTIFICATES

- AWS Academy Graduate - Cloud Architecting | [Aws Academy](#)

Jan' 26

- MongoDB - The Complete MongoDB Developers | [Udemy](#)

June' 25

- Privacy And Security in Online social media | [Nptel](#)

April' 25

EDUCATION

• [Lovely Professional University](#)

Punjab, India

• *Bachelor of Technology*

Aug' 23

Computer Science and Engineering; CGPA: 6.5

• [Vimla Pandey Gyan Niketan School](#)

Medninagar, India

• *Intermediate; PCM*

Apr' 22 - Mar' 23

Percentage: 65

• [Bright Land School](#)

Medninagar, India

• *Matriculation*

Apr' 20 - Mar' 21

Percentage: 75
